COPERTURE ROOFING

I MANTI SINTETICI MAPEPLAN IN PVC E FPO PER COPERTURE SONO UTILIZZATI CON SUCCESSO IN TUTTO IL MONDO.

In particolare, i manti Mapeplan T in FPO si distinguono per lo strato superiore realizzato con una speciale colorazione bianca **Smart White** che garantisce un'elevata riflettanza solare.

MAPEPLAN SYNTHETIC WATERPROOFING MEMBRANES IN PVC AND FPO FOR ROOFING ARE USED SUCCESSFULLY ALL OVER THE WORLD.

Mapeplan T FPO synthetic membranes are distinguished by the special **Smart White** colour on the top surface which ensures an high solar reflectance.

OPERE IDRAULICHE HYDRAULIC WORKS

PER QUESTI SPECIFICI CAMPI APPLICATIVI SONO RICHIESTI MANTI IMPERMEABILI CON ELEVATE CARATTERISTICHE MECCANICHE ED UN AMPIO SPETTRO DI COMPATIBILITÀ A DIVERSI TIPI DI LIQUIDI.

I manti Mapeplan in PVC ed FPO soddisfano questi requisiti.

THESE SPECIFIC APPLICATION FIELDS REQUIRE WATERPROOFING MEMBRANES WITH HIGH MECHANICAL PROPERTIES AND A WIDE COMPATIBILITY TO DIFFERENT TYPES OF LIQUIDS.

Mapeplan synthetic membranes in PVC and FPO meet these requirements.

TUNNEL E OPERE INTERRATE

TUNNEL & UNDERGROUND STRUCTURES

PER LE COSTRUZIONI DI OPERE INTERRATE È RICHiesta UNA LUNGA ASPETTATIVA DI VITA.

Questa aspettativa è ugualmente alta per i manti sintetici utilizzati per l'impermeabilizzazione delle opere in sotterraneo. I manti Mapeplan garantiscono elevate performance. Le opere interraste richiedono sistemi di impermeabilizzazione evoluti, specifici per ogni singolo progetto. I nostri uffici tecnici sono a vostra disposizione per supportarvi nelle scelte progettuali.

FOR THE CONSTRUCTION OF UNDERGROUND WORKS IT IS REQUIRED A LONG LIFE EXPECTANCY.

This expectation is high also for synthetic membranes used for waterproofing underground structures. Mapeplan membranes ensure high performances. The underground structures require advanced waterproofing systems, specific for each project. Our technical department is at your disposal to support you in your design project.
